## Beware Investigate

Always investigate before you part with your money. That's good sense. When you do investigate, go to someone who knows WHAT THEY ARE TALKING ABOUT, SOMEONE WHO WILL TAKE THE TIME TO FIND OUT THE FACTS FOR YOU.

Insist upon getting the truth based upon definite facts and definite information-not an opinion based upon one man's idea.

Usually you will be advised upon general principles alone. With no thought of the actual merits of your particular problem.

We earnestly court the most rigid and thorough investigation-both as to our plan of business, the discount banking business, and the character and ability of the men who are handling the affairs of this corporation. But let that investigation be a real investigation-let them go clear to the bottom of this business. Then use your own judgment based on the real merits of the proposition.

If you will seek advice and counsel of one competent to analyze and weigh definite facts there will be no question as to your decision.
